Pillow

This product is in a Oil only format

Description

These pillows are made from an absorbent blend of chopped polypropylene and natural recycled Coldform™ fibers. They absorb only Oil based spills. Ideal for day to day maintenance, these pillows absorb drips and leaks too big for a pad. Placing them under machines and leaky hydraulic hoses, they fit easily into cramped spaces and mold conveniently to uneven surfaces.

Key features

- Fast-wicking surface area and high-absorption capacity shortens clean-up time
- Large surface area and absorbent contents soak up larger spills
- Highly flexible pillow fits in tight spaces

Application

An excellent product for placing around machinery or in workshop areas to prevent leaks or spills from spreading.

Notes

- Fire retardant as per ASTM 726
- Avoid high-heat applications
- Not recommended for long-term use in water
- Ensure that disposal of these sorbents complies with all regulations.

* Basis weights and recycled content are ± 5%

** Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.

*** Weight per case ± 0.5 kg/lbs.

Compliance

Related Regulations	Description
29CFR 1910.22(a)(2)	"The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition."
29CFR 1910.120(j)(1)(vii)	"...suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks or ruptures may occur."
29CFR 1910.107(g)(2)	"All spraying areas shall be kept as free from the accumulation of deposits of combustible residues as practical."
